

EU-LAC Health.

Scenario 2: several independent initiatives

October 23, Buenos Aires.
Carlos Segovia.

Scenario 2: several independent initiative

A series of initiatives in different fields, with different models and instruments

Description:

Funding

Research activities

Governing structures

Values and principles

Contribution to JIRI and SOM

Scenario 2: several independent initiative

Funding

ERA-nets & INCO-nets:

defined by scientific field, include research + human resources

May get up to 30 M€ (?)

Bilateral agreements:

EC – LAC countries

Research networks \approx CYTED

Institutional agreements ► common planning, networking

Scenario 2: several independent initiative

Research activities

Collaborative projects
Capacity building & mobility
Access to infrastructures

Scenario 2: several independent initiative

Governing structure

Decentralized in each initiative

Can be followed by SOM but not integrated planning or management

Management boards with task forces + scientific advisory boards

DG RTD + DG CONNECT

DG DEVCO less likely

Uncertain involvement of low and middle income countries

Scenario 2: several independent initiative

Values and principles

Scientific excellence

Societal challenges mostly implicit

Transparency

Co-property and shared responsibilities and liabilities

Contribution to JIRI and SOM

Clear progress

Ambitious

Not easy supervision

Low and middle income countries to be seen

Scenario 2: several independent initiatives

| Functions | | Models in scenario 2 | | |
|------------------------|----------------------------|---|---|-----------------------------|
| | | ERA-nets | Bi or multilateral agreements | Cooperation for development |
| Policy governance | Funding | Cash (virtual pot) In kind | Cash (if funding agencies) In kind (if institutions) | Transfer of funds |
| | Governing structure | Management board Scientific advisory board | Similar fewer actors | Similar fewer actors |
| | Values & principles | Cooperation Transparency Co-property Scientific productivity | Cooperation Transparency Co-property Scientific productivity | Solidarity |
| Governance of research | Contribution to JIRI & SOM | Progress | progress | To be explored |
| | Research activities | Projects Mobility Capacity building | + access infrastructures | Mainly capacity building |
| | Peer review | Independent international panel | Independent international panel or in house | In house |
