Strategic Roadmap 2015-2020

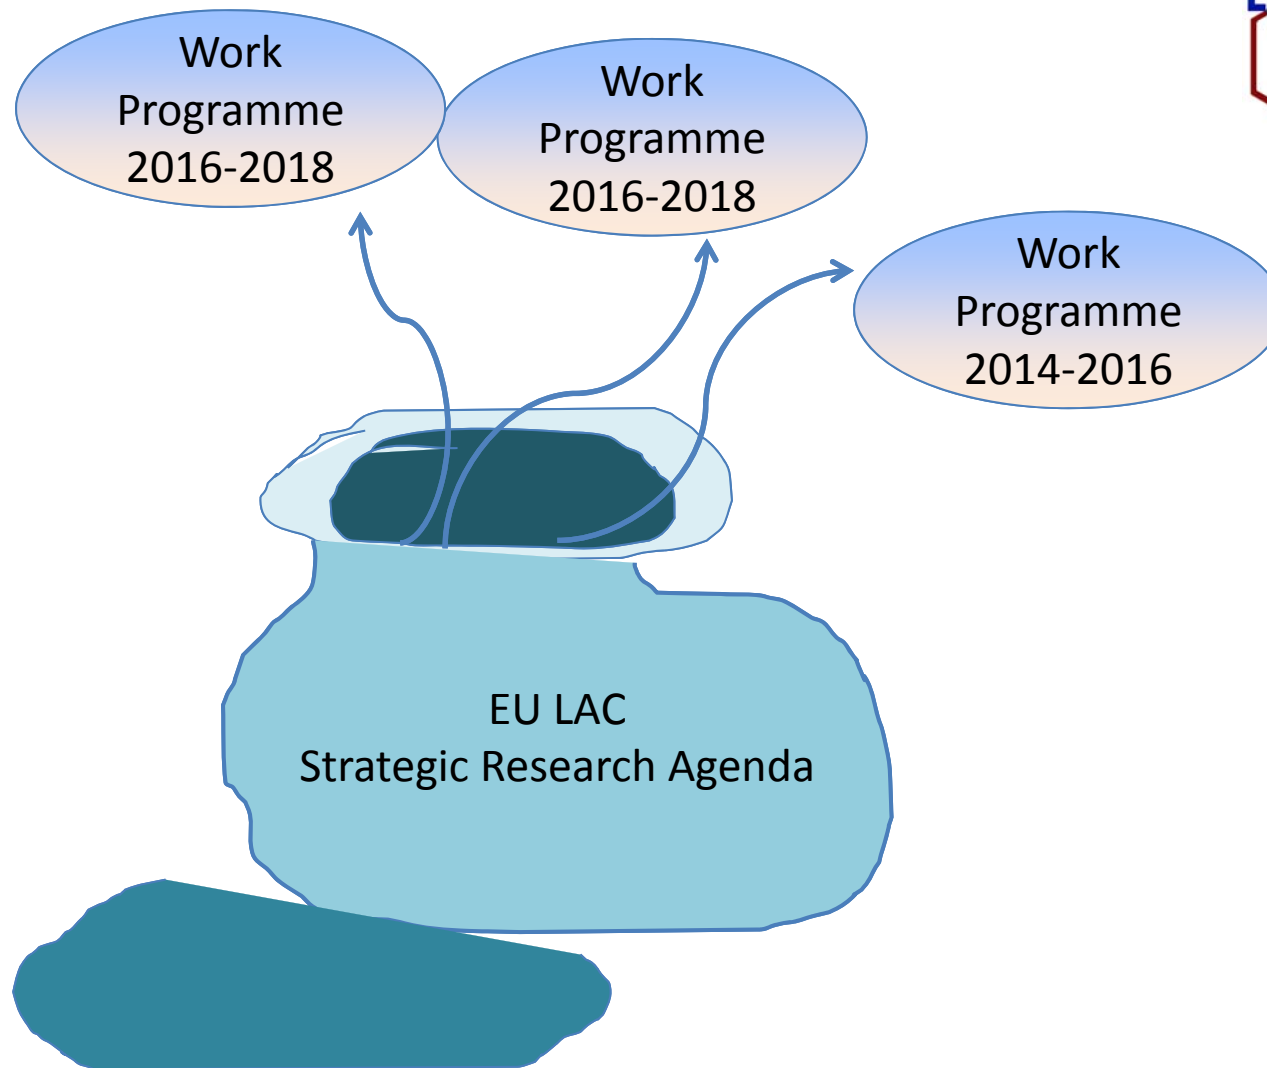

EU LAC Strategic Research Agenda (SRA)

Definition

It is the **Scientific Framework on Health Research with a high added value** for EU LAC collaborattion which will guide us in defining subsequent health research **work plans** for funding.

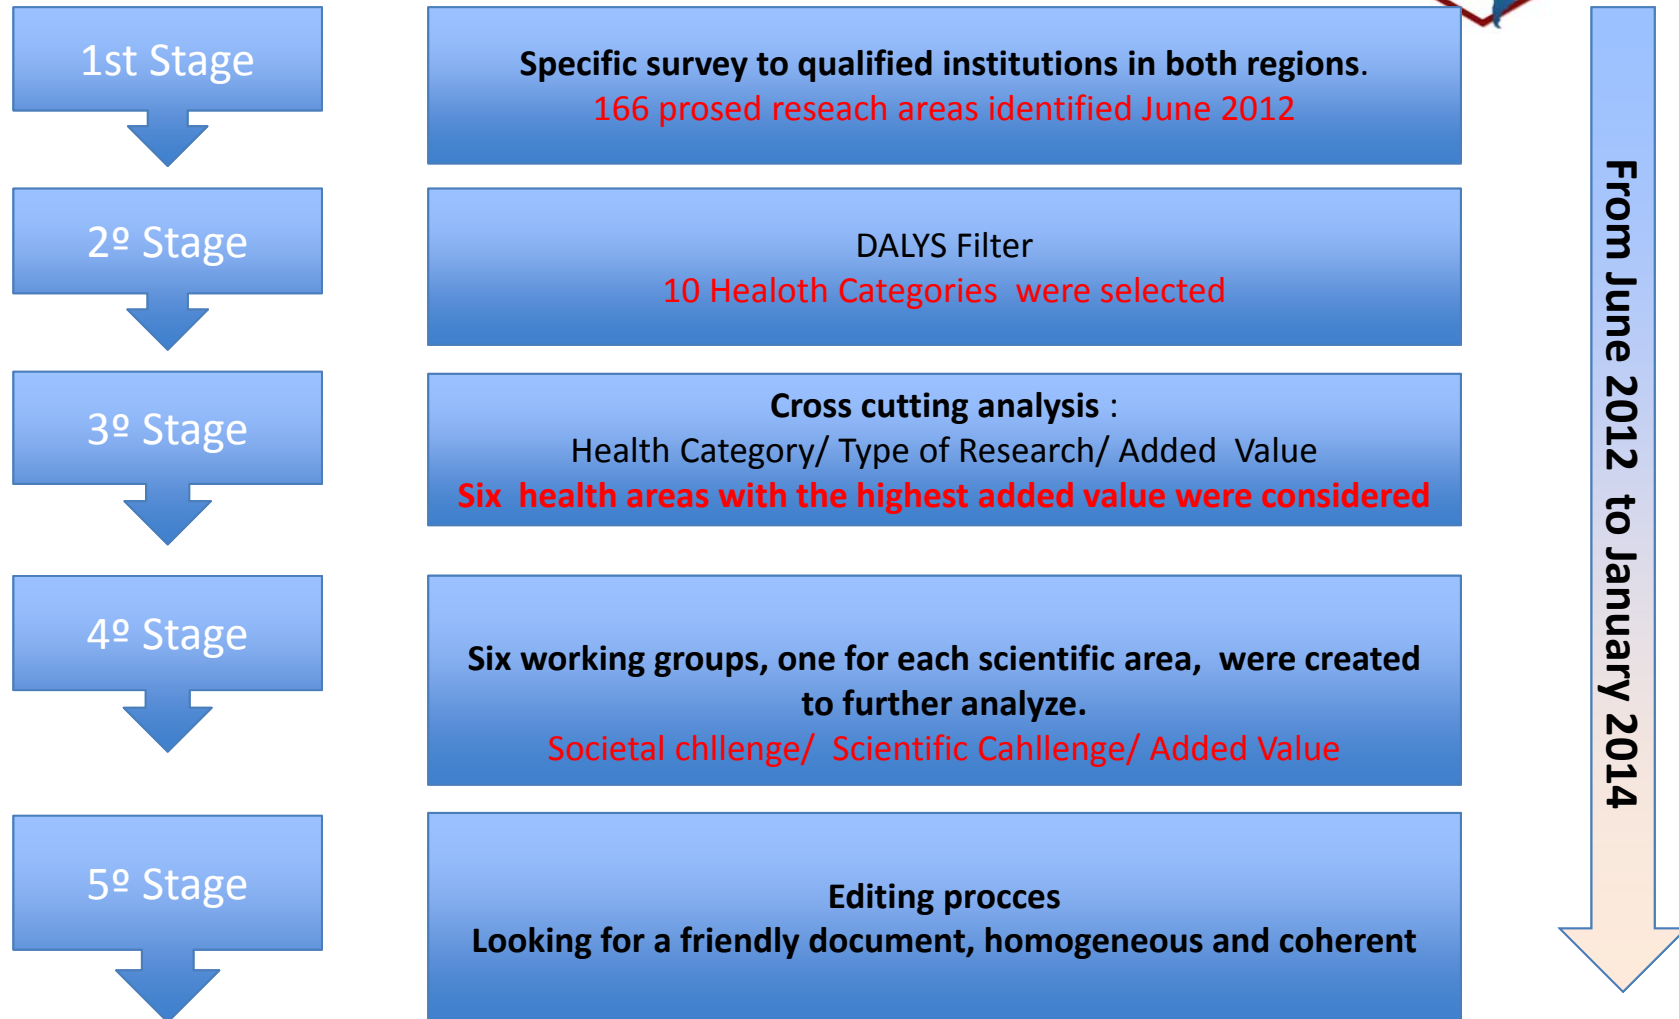

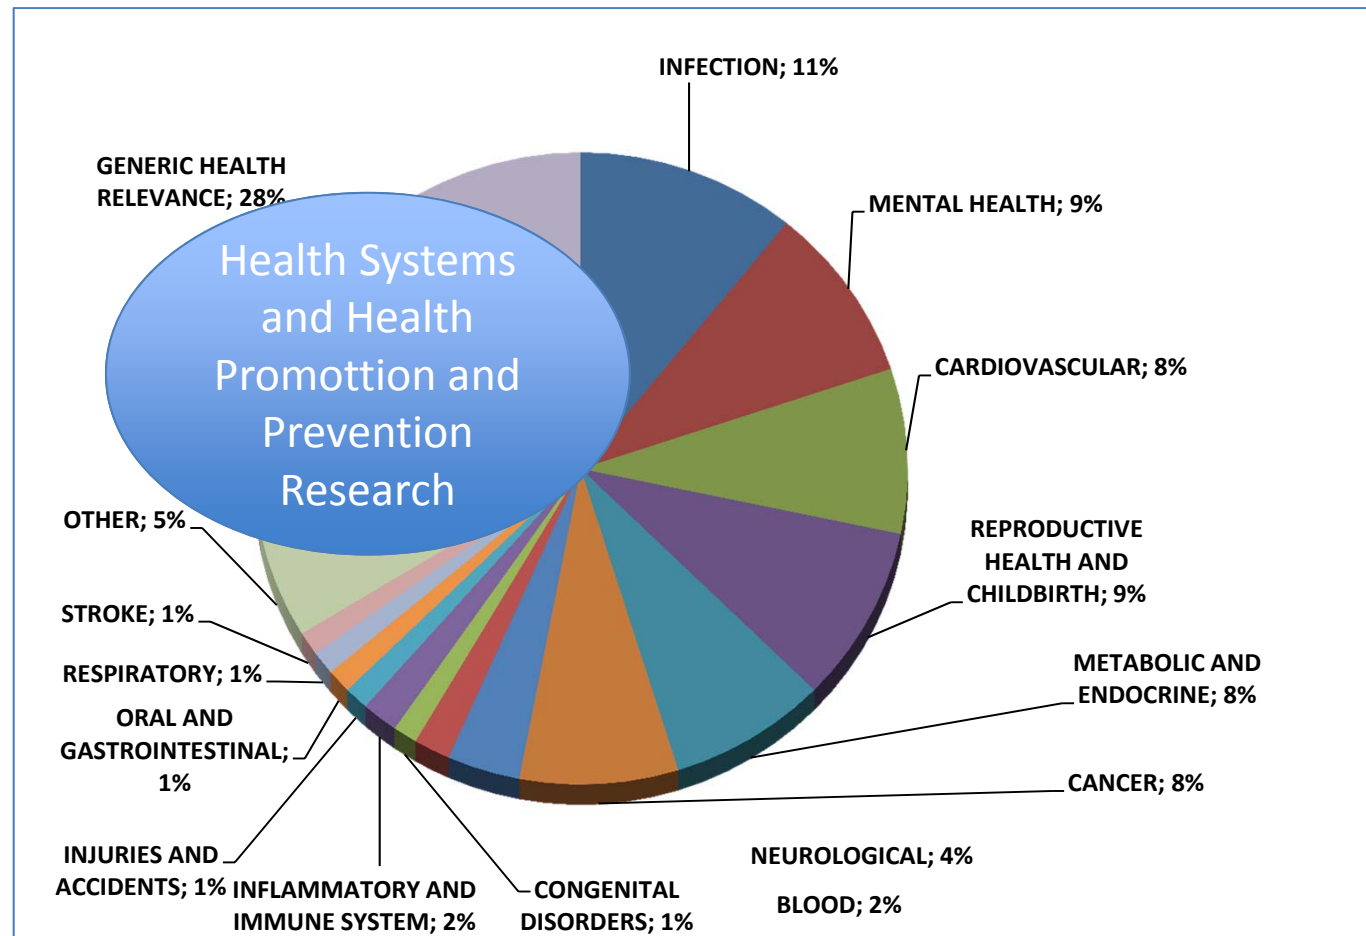

EU-LAC HEALTH has received funding from the European Union Seventh Framework Programme (FP7/2007-2013) under grant agreement n° 281459.

Which has been the way for reaching here ?

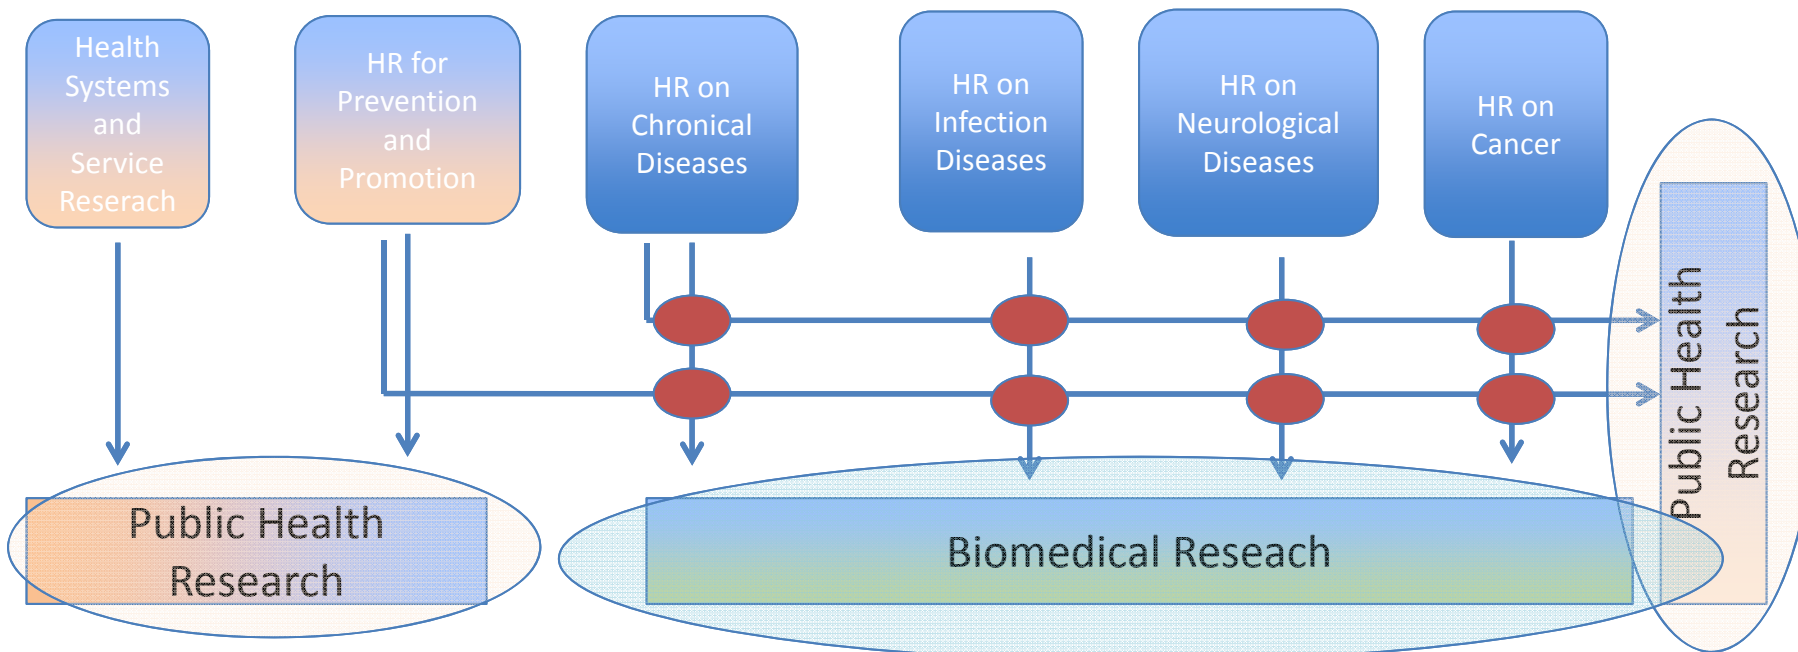

Breakdown of the initially 166 proposed research areas according to health categories

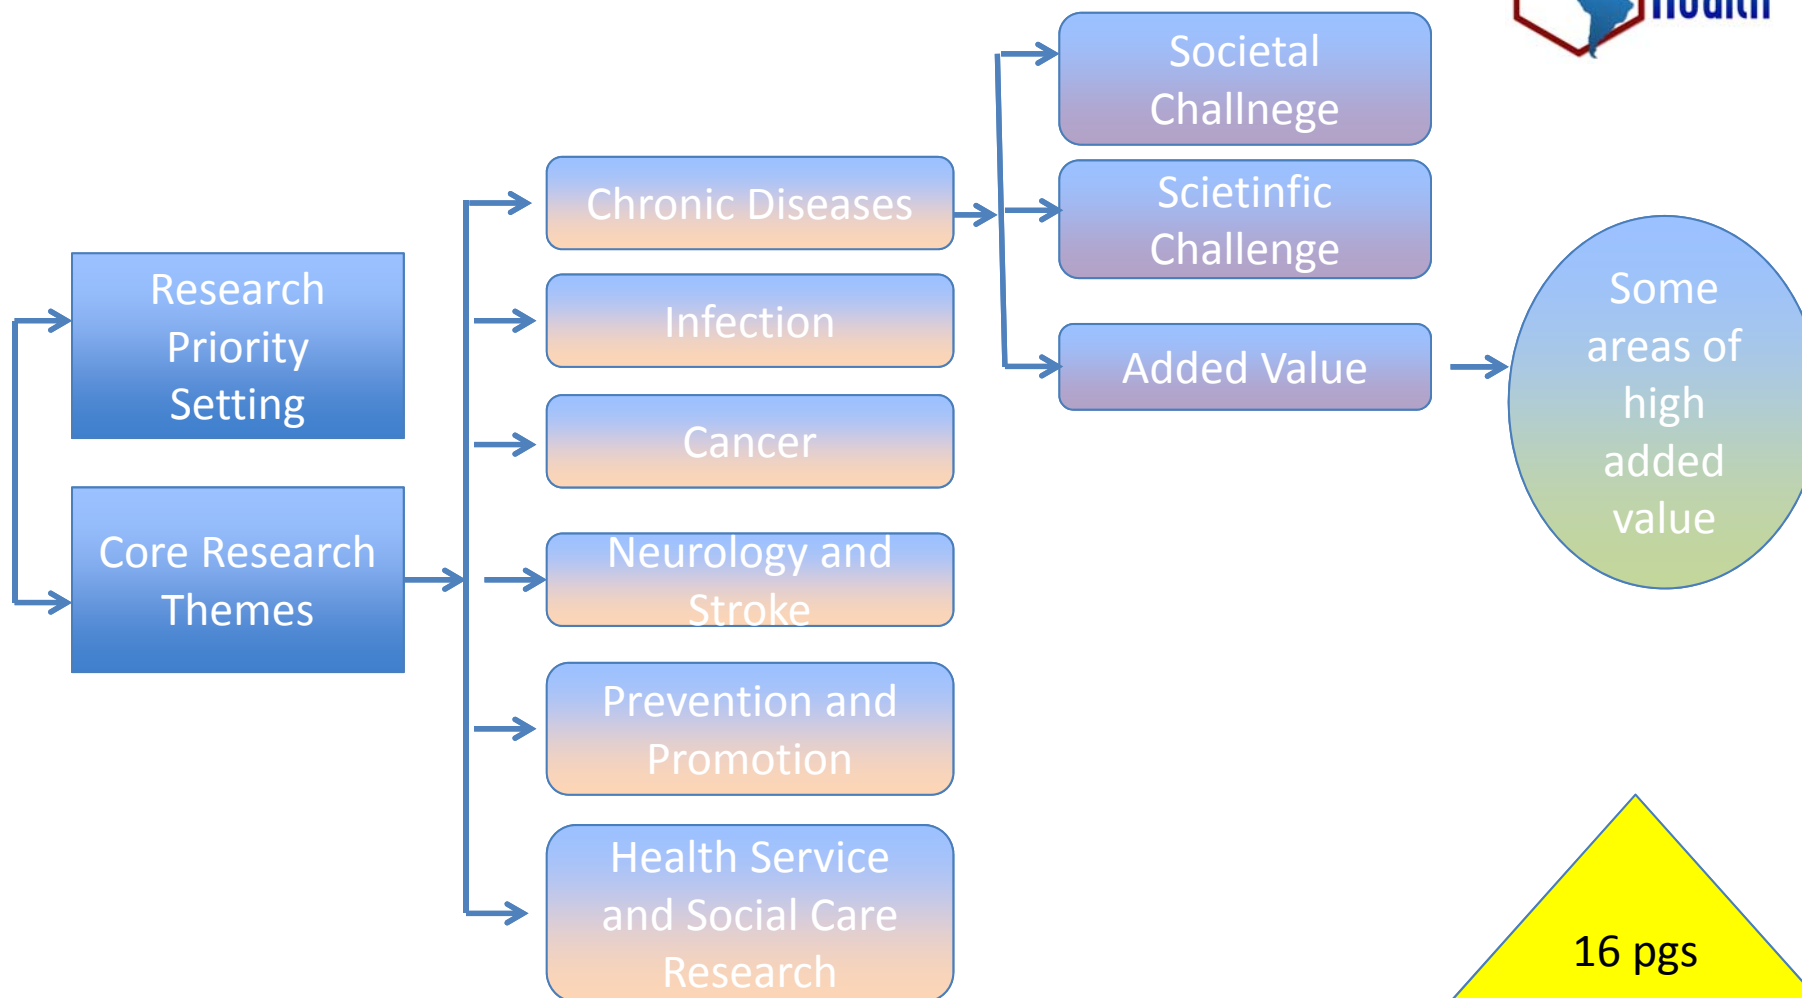

EU-LAC HEALTH has received funding from the European Union Seventh Framework Programme (FP7/2007-2013) under grant agreement n 281459.

6 Priority Areas

SRA Structure

Added value for a sharing EU LAC Research Agenda

- ✓ Could provide the critical mass needed to address grand societal common challenges
- ✓ Promote scientific excellence
- ✓ Reach expertise scattered across several countries
- ✓ Differences in cultural context, genetic background, population age, and type of health care system
- ✓ Export or import models and practices that have proven to be successful for the prevention and control of diseases.
- ✓ Data sharing, expertise, technological support
- ✓ Enable rapid dissemination of research results: speaking with one voice
- ✓ Building capacities development
- ✓ Promote scientific progress and strengthen technological capabilities through technology transfer

Conclusions

- ✓ Our SRA is the result of a good enough prioritization process.
- ✓ The SRA was supported by an outstanding research groups of EU LAC.
- ✓ The SRA is a helpful instrument for subsequent definition of bi o triannual working programmes.
- ✓ We agree that not all priority research lines are contemplated in the SRA; for that reason:
- ✓ Our SRA has to be flexible and be adaptable to new inputs or priorities .

Who are the protagonists in the process to define the SRA?
