EU-CELAC Policy Dialogue

Main results of cooperation

Impact of representative projects and programs

- ✓ Bi-regional policy dialogue: technical support and follow-up scheme
 - SOMs meetings; with CELAC and EU representatives + EC (annually)
 - Strong technical support - structure (INCONETS - **ALCUENET**)
- ✓ **Implementation of bi-regional activities - ERANetLAC:**
 - First multilateral joint call (16 agencies, 8 topics - 4 areas)
 - Pilot coordination actions – opening and the coordination of programs and infrastructures at a UE-CELAC scale
 - Tool Box - systematic and accessible architecture of existing opportunities
 - Platform for coordination of funding agencies (beyond the project)
- ✓ Synergies between EU-CELAC projects and other regional initiatives and programs with potential for EU-CELAC collaboration

Conclusions

Consolidated dialogue - working group participants and different stakeholders at the national, regional and bi-regional scale

➔ INCO initiatives

Built upon a mature relationship and prior cooperation, enhanced by multilateral and bilateral projects (EC support)

➔ Schemes (ERANet and others and combination of instruments)

National funding mechanisms for implementing pilot initiatives (dialogue to agree with national funding agencies for pilot initiatives)

➔ SOM ST&I

The Challenge

To establish an EU-CELAC platform (permanent) - actors involved in R&I orientation, funding and implementation and other relevant stakeholders from the public and private sector and the civil society
