

Horizon 2020 Training

Opportunities for EU-LAC collaboration in health research and innovation

16th November 2016 – Hotel Radisson San Jose - Costa Rica

Objective

Provide comprehensive information and practical clues for participating in Horizon 2020 EU Research and Innovation Funding Programme, oriented to EU-LAC collaboration, as well as provide visibility to Latin American and European Health researchers pitching on their research offer for Horizon 2020.

Time	Title	Content	Speaker
8.30	Registration		
9.00	H2020 introduction & Rules of Participation	Introduction, main pillars and subprogrammes Rules of Participation (main schemes, participation of third countries)	<i>INNOVATEC</i>
	Excellent Science	MSCA, ERC, eligibility and evaluation criteria	<i>DLR</i>
	Social Challenge 1: Health, Demographic Change and Wellbeing	Objectives, Work Programme, Topics with interest for third countries	<i>APRE</i>
	Proposal Preparation for collaborative projects	Proposal structure, evaluation criteria, budget	<i>MINCYT</i>
11.00	Break		
11.30	Other Opportunities	Other societal challenges. Other programmes.	<i>ISCIII</i>
	Responsible Research and Innovation	Open Science, Alternative Metrics, Research Integrity, Citizen Science	<i>Stephane Berghmans (EU-LAC Health Advisory Board)</i>
	Experience of a Costa Rican participant	Vision from a LAC partner	<i>MSCR</i>
	Tools and Tips	Sources of information, consortium building, support, tips	<i>APRE</i>
	Questions & Answers		Moderated by <i>MSCR</i>
13.15	Lunch		
AFTERNOON SESSION (Participation requested at the registration form)			
14.45	Elevator Pitch	Take the chance to present your institution and/or research proposal in maximum 5 mins.	Moderated by <i>Fiocruz</i>
15.30	Meet an expert in Horizon 2020	If you have a research idea or simply you would like to know more about funding opportunities in Horizon 2020, you can have personal interview with H2020 experts.	Coordinated by <i>ISCIII</i>
16.30	Closing

HORIZON 2020 AT A GLANCE

Horizon 2020 is the biggest EU Research and Innovation programme ever with nearly €80 billion of funding available over 7 years (2014 to 2020) – in addition to the private investment that this money will attract. It promises more breakthroughs, discoveries and world-firsts by taking great ideas from the lab to the market.

Horizon 2020 is the financial instrument implementing the Innovation Union, a Europe 2020 flagship initiative aimed at securing Europe's global competitiveness.

By coupling research and innovation, Horizon 2020 is helping to achieve this with its emphasis on three main pillars: **excellent science**, **industrial leadership** and tackling **societal challenges**. The goal is to ensure Europe produces world-class science, removes barriers to innovation and makes it easier for the public and private sectors to work together in delivering innovation.

Horizon 2020 is **Open to the World**. This means that **participants from all over the world, regardless of their place of establishment or residence, can participate in most of the calls of Horizon 2020**. In many cases, the EU will fund at least partly the participation of the international partners.

In addition to this general openness, several calls strongly **encourage or require cooperation** with non-EU partners in collaborative projects, target a certain country/region or refer to **global initiatives**, like the Global Alliance for Chronic Diseases.

For **individual researchers**, the European Research Council (ERC) and the Marie Skłodowska-Curie actions (MSCA) offer unparalleled funding opportunities for those who want to do research in Europe.

For having a rough idea about how Horizon 2020 works please **watch this video**:
