| Telephone number | +593 2 2903249 ext. 124 |
| Initial Funding Commitment | The financing will be flexible and will depend on the number of postulated projects and established consortium Until EUR 200.000,00 |
| Tentative number of project partners to be funded with the funding commitment | A tentative number is not defined but it is estimated the greatest number of projects to cover the EUR 200.000,00 |

Type of funding model:

The joint call will be carried out through a coordinated scheme; the funding will depend on the nature and duration of the proposed activities, the methodology, the expected potential impact and the quality of the consortium and should be justified in terms of the resources needed to achieve the objectives of the project.

What types of costs are eligible for funding?

- Human resources
- Technical visits according to the governmental and institutional regulations.
- Equipment
- Project management
- Bibliographic resources and software
- Research materials and supplies
- Materials and office supplies
- Transfer of results
- Subcontracts and services
- Training

Upper funding limits for eligible costs?

For this call there are not upper funding limits for eligible costs (according to the governmental and institutional regulations).

Who can apply?

All the proposals must be submitted by two or more Ecuadorian public or private institutions, the funds of selected projects must be management by a public institution.

According to the factual legal framework for the presentation of programs and projects of R&D in Ecuador, the specific calls are targeted to the actors of the National System of Science, Technology, Innovation and Ancestral Knowledge, including:

- Public Universities and Polytechnic Schools;
- Public research institutions;
- Research and development (R&D) National public institutions.
- Others approved by the Executive Committee of research programs and/or projects

Note: Private institutions and universities must participate in co- execution with the related actors.

According to the EU-LAC HEALTH Joint Call on Health Research and Innovation guide for applicants, the projects will be funded for a period of up to 36 months
